Footnotes

The numbers shown in the above table assume a single hypothetical investment of \$1000. The performance figures represent past performance only and neither guarantee nor predict future investment results. Investment return and principal value of a Kansas City Life VA will fluctuate so that your contract, when redeemed, may be worth more or less than the amount of your purchase payments. Current performance may be lower or higher than the performance data quoted herein. Figures shown are unaudited.

Returns reflect deductions of a 1.25% annual mortality and expense charge, a 0.15% asset based administrative charge and an annual fee of \$30.

The performance returns for "**Surrendered Contracts**" include the maximum surrender charge (7% in the first three years, graded down to zero by the end of the seventh year). The other returns shown ("**Non-Surrendered Contracts**") do not include the applicable surrender charge.

While the Federated Prime Money Fund II seeks to maintain a stable \$1.00 net asset value, there is no assurance that it will be able to do so and it is possible to lose money by investing in the portfolio. An investment in the portfolio is not insured or guaranteed by the FDIC or any other government agency.

¹ Rate subject to change. We guarantee to credit at least 1% on the KCL Fixed Account. This guarantee is backed by the claims-paying ability of Kansas City Life. See Information of Interest for current rate.

² Performance data represents past performance only. Some subaccounts have experienced high returns due to unusually favorable market conditions that may not continue to exist. There is no assurance that this performance will be repeated in the future.
